Checking Package Contents

Before using the printer, check that you have all the items below. Contact your place of purchase if anything is missing or damaged.

1. LW-PX800
2. Top cover
3. Bottom cover
4. Lamp
5. Printer
6. Lamp
7. Paper lamp

Specifications

- **Dimensions**
  - Approx. 121.9 (W) x 151.0 (D) x 119.4 (H) mm
- **Weight**
  - Approx. 1.7 kg
- **Power supply**
  - AC 100-240V, 50/60Hz
- **Input**
  - DC15V, 2.7A
- **Output**
  - DC12V, 1.6A
- **Frequency**
  - 50/60Hz
- **Total output power**
  - 17W
- **Power consumption**
  - Approx. 17W (when in operation)
- **Storage temperature**
  - -20 to 60 degrees C
- **Operating temperature**
  - 5 to 35 degrees C
- **Humidity**
  - 20 to 80% RH (without condensation)

Cleaning

To prevent the risk of cuts, never insert fingers in the perforator or tape dispenser.

1. Press the button to open the top cover.
2. Remove the tape scraps, then insert the tape back in the printer.
3. Pull out the tray.
4. Replace the tape cartridge, then insert the top to open the cover.
5. Close the top cover.

Frequency Precautions

The frequency used for this product is 2.4 GHz. This frequency range is the same as that used by various wireless systems, such as wireless LAN, wireless stereo sound systems, cordless phones, microwave ovens, and air conditioners. As a result, there may be other wireless systems nearby that interfere with this product or that are affected by this product.

1. Keep the printer away from microwave ovens, air conditioners, and other electric appliances.
2. Do not keep the printer near a heater or anywhere where it will be exposed to direct sunlight.
3. Do not place the printer near a heater.
4. Do not use the printer in the vicinity of high-voltage power lines or anything that generates a magnetic field.

Measurings of lamps

- Lamp
  - Turns the printer power ON/Stand-by
- Lamp
  - Stays on while the printer is powered on and in standby mode. Flashes when there is an error.
- Lamp
  - Stays on when the printer is connected to a wireless network in Infrastructure Mode, or while the printer is initializing. Flashes while setting up wireless network connection in Infrastructure Mode or while the printer is in the startup process.
- Lamp
  - Shows when the printer is a wireless network in Access point Mode or while the printer is initializing. Flashes while setting up wireless network connection in Access point Mode or while the printer is in the startup process.

Replacing the tape cartridge

1. Press the button to open the top cover.
2. Replace the tape cartridge by pressing on the tab on both sides.
3. Place a new tape cartridge in the printer.
4. Close the top cover.
