LW-PX900

Rugged · Dependable · Exceptional

Px TAPE · 4-36 mm · Auto-cut · Half-cut · Bar Code · Use with PC · QR Code · ENERGY STAR · LIFETIME WARRANTY

LW-PX900

Designed with innovative features that save time and tape, the LW-PX900 features high-speed print output so you can print precise labels, bar codes, QR codes, and wire identification labels faster and with better detail than competing printer models.

Plus, we've packed all of this printing power into a rugged body that meets MILSPEC drop test specifications and is fully-backed by Epson's industry-leading lifetime warranty.

POWERFUL DESIGN SOFTWARE

LW-PX900 works great as a stand-alone unit, or connected to a PC, using Epson's Label Editor Software. Create professional, custom labels that stand out either way!
VERSATILE CUTTING

Epson LabelWorks' LW-PX900 has the power to half-cut or "kiss cut" label tape, keeping your labels all together on one convenient strand.
SCANNABLE LABELING

LW-PX900 can produce bar codes and QR Codes using the stand-alone unit, or connected to a PC.

AUTOMATED LABELING PROJECTS

Industrial hot keys simplify and automate complicated labeling projects, and speed up productivity. Choose from many wire marking applications like patch panels and punch block.

REDUCED TAPE WASTE

LW-PX900 can produce the tightest labels in the business, reducing tape waste with every label printed. The printer rewinds unused tape from the mouth of the printer prior to every print to minimize leading margins to as short as 4mm, much smaller than many competitors' margins that can exceed 1 inch.

DESIGN CONTROL

Improved firmware offers more font size control and improved mix-length capability with supplies like self-laminating tape.

LIFETIME WARRANTY

Register your printer with us when you receive it, and you're covered for as long as you own it. **100% Covered. Always. You break it. We replace it. For life.**

And this warranty isn't some add-on service plan available at an additional cost. Instead, your warranty comes with your printer, so you'll never have to worry about life if it happens to your printer.
